TOLERATE SILICONE CASE SAM S26 ULTRA BLK

SKU: ED300026

Soft Protection with MagSafe

The Tolerate Silicone Case combines a soft, comfortable silicone material with reliable protection against bumps, scratches, and everyday wear.

The built-in MagSafe system provides a strong and secure magnetic connection to compatible chargers, wallets, mounts, and other accessories.

With raised edges around the screen and camera, plus a soft microfiber lining on the inside, your phone gets reliable all-around protection — without compromising on a slim and stylish design.

PRODUCT DESCRIPTION

Guaranteed Protection Against Everyday Drops

Protect your phone from everyday bumps, scratches, and unexpected drops with the Tolerate Silicone Case. Made from premium liquid silicone, the case provides a soft, comfortable grip while offering reliable protection against dust, dirt, and everyday wear.

The durable silicone material is designed to provide dependable protection without adding unnecessary bulk. Raised edges around the screen and camera help protect these sensitive areas when your phone is placed down or exposed to impacts.

Soft Microfiber Lining for Added Protection

The inside of the case features a soft microfiber lining that helps protect the back of your phone from scratches and marks. Combined with the protective silicone exterior, it provides complete protection for your device.

Fully MagSafe Compatible

The built-in, strong magnetic ring provides a secure magnetic connection and makes the case compatible with most MagSafe accessories. Easily use magnetic chargers, car mounts, stands, wallets, and other MagSafe products without removing the case.

Compatible with Tolerate Glass Screen Protector

For complete protection, the Silicone Case is fully compatible with the Tolerate Glass Screen Protector. Together, they help protect your phone's edges, back, camera, and screen from everyday wear and damage.

Soft, Comfortable, and Easy to Clean

The soft silicone material provides a comfortable and secure grip while being easy to keep clean. Stains and dirt can easily be wiped away with a damp cloth, helping your case stay fresh for longer.

Precise cutouts provide easy access to all buttons, speakers, cameras, and sensors. The tactile buttons offer a responsive feel and clear feedback with every press.

Reduce Waste with Every Purchase

By choosing Tolerate, you say goodbye to traditional blister packaging and welcome our smarter bulk packaging solution. Tolerate products are delivered in bulk packaging made from recycled plastic — a more resource-efficient alternative that helps reduce unnecessary packaging waste.

Protect smart — together, we can make a difference.
